WORK EXPERIENCE

Junior Software Engineer / QA Analyst | *Frontech Solutions*

Aug 2026 – Present

- Built a Python ETL pipeline to collect QA team data into Excel and Google spreadsheets from a Jira API webhook, which saved approximately 40 minutes in data gathering and reduced manual data input by 100%.
- Developed Python script workflow automation to track Jira ticket movement between the development and QA team, improving work visibility and dropping project update delays from an average of 2 hours to under 5 minutes.
- Communicated closely with clients and stakeholders to gather business requirements from ambiguous requests, and collaborated with them to determine acceptance criteria and gain agreement on definitions of relevant data.

Dental Hygienist / Health Data Analytics | *Independent Contractor*

Jun 2022 – May 2025

- Educated clients on the effectiveness of oral health prevention methodologies to remove or reduce oral disease risks, demonstrating ability to distill high-level concepts to non-technical stakeholders.
- Gathered, compiled, and analyzed oral health data trends that informed future decision making, leading to improvements to patient oral health outcomes for 70% of patients recurrently encountered.

IT Support / Receptionist | *Glenora Family Dental*

Jun 2021 – Jun 2022

- Served as the primary point of contact for all inbound communication (email, phone, in-house messaging), demonstrating strong customer service and communication skills.
- Coordinated IT-related communication between management and production staff, escalating unresolved issues appropriately.

PROJECTS

Personal Portfolio Website | *JavaScript, HTML, CSS — Individual Project*

Ongoing

- Designed and deployed a full-stack personal portfolio website hosted on GitHub Pages, demonstrating end-to-end web development skills including design, development, and deployment.
- Integrated GitHub public REST API calls for automatic pulling of project and resume data.

EDUCATION

Computer Engineering Tech Diploma | *Northern Alberta Institute of Technology*

Sept 2024 – Apr 2026

- Relevant coursework: Data Structures, Algorithms, Object-Oriented Design, Databases and REST APIs.

Bachelor of Science, Honours with Distinction | *University of Alberta*

Aug 2019 – Jun 2022

- Relevant coursework: Statistics, Data Analytics, Root Cause Analysis, Stakeholder Communication.

LEADERSHIP AND MENTORSHIP

Programming Instructor | *Skillcity Institute*

May 2025 – Sept 2026

- Mentor youth aged 8 to 17 in web development, electronics, and robotics; design hands-on curricula making complex technical concepts accessible across skill levels.

Volleyball Coach | *Adult Recreation Programming*

Jul 2023 – Present

- Lead instructional sessions for groups of up to 20 adult beginners, developing lesson plans, delivering technique coaching, and fostering a collaborative learning environment.

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, C#

Databases: MySQL, Microsoft SQL Server, MariaDB, MongoDB, PostgreSQL

Tools: Git, GitHub, Github Actions, Microsoft Azure, VS Code, Power BI, Microsoft Excel, Google Sheets

Practices: REST APIs, Object-Oriented Programming, CRUD Operations, Agile, Jira, Workflow Automation, CI/CD, ETL Pipelines, Data Warehousing, Stakeholder Communication, Data Analysis, Data Visualization, HIA and PIPA privacy compliance
